

Description of JS1500 Concrete Mixer:

JS1500 compulsory concrete mixer discharge every 1.5 square, also known as 1.5 square compulsory concrete mixer is developed from our factory according to SICOMA forced mixing console combined with domestic users. The concrete mixer features a high efficiency forced mixing console. As usual HZS75, HZS90 mixing station or host station. The aircraft has a separate stand-alone operation and dual superiority. The PLD concrete batching machine composed of commodity concrete mixing station, which is widely used in medium and large precast plant and highways, bridges, water , terminals and other industrial and civil engineering.

JS1500 Concrete Mixer Applications and

Features:

JS1500 concrete mixer (HZS75 concrete batching plant for sale, HZS90 mixed concrete batching plant) applies to all types of large, medium and small prefabricated factories and roads, bridges, water conservancy, port and other industrial and civil engineering, which can mix dry concrete, plastic concrete, fluidity concrete, lightweight aggregate concrete and all kinds of mortar. The product design is reasonable structure, innovative layout, ease of use and maintenance.

Technical Parameters of JS1500 Concrete Mixer:

Specification	Unit	Value
Discharging Volume	L	1500
Charging Volume	L	2400
Mixer Capacity	m ³	1.5
Lubrication System	Brand	Chooosed
Reducer	Brand	Chooosed
Aggregate Size	mm	60/80
Aggregate Category	Quantity	4
Working Circle	S	60
Mixer Motor Power	KW	45
Mixing Speed	r/min	23
Mixing Blade	Quantity	2x9
Lifting Motor Power	KW	18.5
Pump Motor Power	KW	3
Weight	KG	8700
Dimensions	mm	5058x2250x2440
