

Description of JS2000 Concrete Mixer:

1. JS 2000 concrete mixer has a rational design structure with new arrangement, and is easy to be repaired and used. JS 2000 concrete mixer is composed of double shaft compulsory concrete mixer.
2. The advantages of JS2000 concrete mixer:
 - 2.1. To be operated independently as single
 - 2.2. To be combined with PLD series compounding machine to form simple concrete batching plant
 - 2.3. To provide associated main machine for batching plant
 - 2.4. To be applicable to large, medium and small scale prefabricated components plants and road, bridge, irrigation works, dock and civil building project
 - 2.5. To mix hard concrete, quaking concrete, fluidity concrete, light weight aggregate concrete and various kinds of high efficiency model.

The features of JS2000 Concrete Mixer:

1. Excellent mixing performance
2. Wear-resisting lining board
3. Shaft-end sealing technology
4. Multiple protection devices
5. Heavy-duty design, easy to operate and low noise

The Technical of JS2000 Concrete Mixer:

Specification	Unit	Value
Discharging Volume	L	2000
Charging Volume	L	3000
Mixer Capacity	m3	2.0
Lubrication System	Brand	Choused
Reducer	Brand	Choused
Aggregate Size	mm	60/80
Aggregate Category	Quantity	4
Working Circle	S	60
Mixer Motor Power	KW	74
Mixing Speed	-	-
R/min	35.5	-
Mixing Blade	Quantity	2x7
Lifting Motor Power	KW	21
Pump Motor Power	KW	3
Weight	KG	9200
Dimensions	mm	6500x3875x11510
