

## The Description of JZC350 Concrete Mixer:

1. JZC 350 Concrete Mixers are gravity type reverse turning discharging mixers with double cone.
2. The mixing tube is driven by ring gear.
3. During its operation, the JZC350 concrete mixer will turn upright while mixing and turn reverse while discharging.
4. It can mix quaking concrete and semi-hard concrete, which is applicable to normal construction site, road, bridge works and various types of concrete members'factories.
5. JZC, JZM series concrete mixer including JZC 250,350,500,750 and JZM350, altogether 5 main models, among which, model JZC 350 is movable type, it can be used as single machine or combined with compounding machine to form simple concrete batch plants.

## The Features of JZC350 Concrete Mixer:

1. High efficiency with top quality
2. Stable operation
3. Reasonable structure design and attractive appearance
4. Great mixing quality
5. Portable and easy to move

### The Technical Parameters of JZC350 Concrete Mixer:

Specification	Unit	Value
Discharging Volume	L	350
Charging Volume	L	560
Mixer Capacity	m <sup>3</sup>	0.35
Lubrication System	Brand	Choosed
Reducer	Brand	Choosed
Aggregate Size	mm	60/80
Aggregate Category	Quantity	4
Working Circle	S	72
Mixer Motor Power	KW	5.5
Mixing Speed	r/min	14
Weight	KG	1950
Dimensions	mm	2766x2140x3000
