

SICOMA Concrete Mixer 4.0m³:

1. Powerful compulsory spiral mixing action throws particles from each side of the mixer towards the center, where they combine;
2. The water is forced through powerful jets into the mix, where it is absorbed completely, allowing the cement slurry to coat all the aggregate particles uniformly, forming the strongest concrete.
3. Air purged multi seals to enhance bearing life and effectively avoid slurry leakage.
4. Unique monitoring system to monitor the running conditions of gearbox.
5. Automatic multi pump units for shaft lubrication, special pump pin unit design.

The Features of Sicoma Concrete Mixer 4.0m³:

1. Multi pipes water spraying system to ensure fast and thorough mixing.
2. Optional weighing system
3. High pressure cleaning system

The Technical Parameters of SICOMA Concrete Mixers 4.0m3:

Specification	Unit	Value
Discharging Volume	L	4000
Charging Volume	L	6000
Mixer Capacity	m3	4.0
Lubrication System	Brand	Chooosed
Reducer	Brand	BONFIGLIOLI
Aggregate Size	mm	60/80
Aggregate Category	Quantity	4
Working Circle	S	60
Mixer Motor Power	KW	2x75
Mixing Speed	r/min	31.5
Mixing Blade	Quantity	2x11
Lifting Motor Power	KW	28
Pump Motor Power	KW	3
Weight	KG	11800
Dimensions	mm	2680x4435x2175
